PROFILE

A dedicated student currently seeking employment. Committed to utilizing my skills to further the mission of a company in both. Motivated to expand technical knowledge while maintaining a focus on fitness and personal well-being.

EDUCATION

Vignan's Institute of Information Technology

Bachelor of Technology in Artificial Intelligence and Data Science

Visakhapatnam

Dec. 2021 – May. 2025

INTERNSHIPS

Machine Learning

Skill Vertex

May. 2023 – June. 2023

Bengaluru

- Implemented end-to-end machine learning projects from data collection to model deployment
- Evaluated machine learning models using Python libraries like Scikit-learn and TensorFlow
- Collaborating with Teams in my Intern for Successful Outcomes

Web Development

Ocatanet Services Pvt.Ltd

May. 2024 – June. 2024

Bhubaneshwar

- Developed and maintained responsive and user-friendly websites using **HTML, CSS, JavaScript, Express.js,** and **React.js**.
- Built dynamic web pages and Integrated APIs to fetch and display data from back-end services.
- Optimized website performance, and **cross-browser compatibility**.

PROJECTS

Food-Delivery-Website | *Python, JavaScript, React, MongoDB, CSS*

May. 2024 – Aug. 2024

- Developed a full-stack food delivery web application using JavaScript, CSS, MongoDB, and Python, managing both frontend and backend components for a seamless user experience.
- Implemented data storage using MongoDB, ensuring efficient database management for user and order data, with data inputs handled through a custom-built admin panel.
- Designed and developed a responsive user interface using JavaScript and CSS, optimizing the user experience across various devices and screen sizes.
- Automated payment processing, creating a system where payments are simulated for testing and demonstration purposes without the need for a payment gateway integration.
- Utilized ThunderClient for API testing and validation, ensuring smooth communication between the frontend and backend for reliable data flow and real-time updates.

Movie-Web-Search | *JavaScript, CSS, HTML*

Sep. 2024 – Sep. 2024

- Developed a movie search application utilizing the TMDB API for seamless integration, enabling users to search for movies and retrieve detailed content.
- Implemented a user-friendly interface that enhances the search experience and displays comprehensive movie information.

Portfolio-Website | *HTML, Tailwind*

Sep. 2024 – Oct. 2024

- Created an interactive portfolio website using Tailwind CSS and HTML, showcasing various projects and skills in a visually appealing layout.
- Ensured cross-browser compatibility for a consistent user experience across different web browsers and devices.

TECHNICAL SKILLS

Languages: JavaScript, Python, C, SQL, JavaScript, HTML/CSS

Frameworks: React, Node.js, Express.js, MongoDB

Developer Tools: Jupyter Notebook, VS Code

Libraries: Pandas, NumPy, Matplotlib
